

Lesson 5.1: How Populations Grow

Key Questions:

1. How do ecologists study populations?
2. What factors affect population growth?
3. What happens during exponential growth?
4. What happens during logistic growth?

Vocabulary:

- geographic range:
- population density:
- population distribution:
- age structure:
- immigration:
- emigration:
- exponential growth:
- logistic growth:
- carrying capacity:
